Allows FTP connection even though policy is set to restrict

Product(s): insure/SECURITY

Version of Product(s): 7.0

OS Version of IBM System i: V5R4 and higher

Symptoms: You have an insure/SECURITY policy setup to restrict access to FTP client for a user and when the user that is restricted tries to use FTP client he/she gets a display file saying he/she is restricted but then is allowed to connect and use the FTP client.

Before applying fix: No pre-install actions are needed.

Fix instructions (unique portions in red):

NOTE: All items in red & italic will vary to your environment.

1) detach F70_130529.SAVF to your PC (i.e. to folder *C:\PATCH*)
2) start MS-DOS command prompt session on your PC and navigate to the folder containing detached save file (*CD C:\PATCH*)
3) ftp *<your iSeries name or ip address>*
4) *<user>*
5) *<password>*
6) Binary
7) quote rcmd CRTSAVF XCENTER70/F70_130529
8) put F70_130529.savf /qsys.lib/xcenter70.lib/F70_130529.file
9) quit
10) sign on to iSeries with powerful profile (i.e. *SECOFR equivalent)
11) RSTOBJ OBJ(*ALL) SAVLIB(XCENTER70) DEV(*SAVF) OBJTYPE(*ALL) SAVF(XCENTER70/F70_130529)
12) UPDPGM PGM(XCENTER70/XCFTPRUN) MODULE(XCENTER70/XCFTPRUN)

After applying fix: Restart client ftp job (5250 session)

1) Signoff current 5250 session

2) Sign back onto 5250 session

Fix save file: F70_130529

Changed objects: XCFTPRUN program
